

# Zonefest 2017 Autocross Information

All cars must be tech inspected before running which will be done on-site. Trunks must be empty; front door windows (driver and passenger sides) must be down; Floor mats removed; wheel bolts / nuts must be torqued to specifications; and helmet approved. The autocross classes will be based on Mid-Size Regions from the 2015 Porsche Parade Competition Rules for Medium Size Regions. There are five categories of classes. They are: Stock; Production; Improved; Modified; Non-Porsche.

Stock category (**S**) contains classes of Porsches as normally delivered and specified for use in the United States and Canada. Factory options as normally available for a specific model year are permitted. Certain factory and/or dealer installed equipment/options will move a car out of Stock and into Production or higher category.

Production category (**P**) contains classes of Porsches as normally delivered to the United States and Canada public through authorized sales outlets plus other equipment/options that change or affects performance from Stock category.

Improved category (**I**) is made up of Porsches with more substantial performance affecting changes from Stock specifications whether changed by the factory, dealer or owner.

Modified category (**M**) is made up of Porsches that have performance affecting modifications outside of the limits of the Improved category and for race Porsches (factory built or otherwise)

Non-Porsche category (**X**) contains automobiles not made and sold by Porsche.

Each class is divided into separate men's and ladies' (**L**) group for scoring purposes.

**Trophies:** **First, Second, and Third** place depending on class size.  
Note - Class awards shall be presented in accordance with the following class sizes:

## **Fastest Man and Fastest Woman**

# of Participants in Class	# of Awards Given
1 – 3	1
4 – 5	2
6 or more	3
